HISTORICAL SKETCH

OUR PATRON SAINT

St. Andrew, the Apostle of Greece, the Apostle of Scythia on his way from Sinope to Rome came up the course of Dnieper river with its lofty banks. He saw the heights of Kiev and on them he planted the first cross saying, "See you those hills? For on those hills shall hereafter shine forth the grace of God. There shall be a great city, and God shall cause many churches to rise within it."

THE PURPOSE OF THE COLLEGE

In their petition for the incorporation of St. Andrew's College in Winnipeg its founders had in mind an institution having as its object the maintaining and conducting of a residential and day College for the purpose of giving tuition in university and secondary education subjects, and in theology and in preparatory course for each of them, and in general of promotion of knowledge according to the principles of the Christian religion.

THE ESTABLISHMENT OF THE COLLEGE

The first Ukrainian Greek-Orthodox Seminary in Canada was organized in 1932 and, at once, the need of a College became apparent. This Seminary continued its work until the end of October 1944 and, during that time, it qualified eleven candidates for priesthood in the Ukrainian Greek-Orthodox Church.

During the first school year, 1932-33, the Seminary was located in the P. Mohyla Ukrainian Institute at Winnipeg. During the next school year, 1933-34, a private building was rented for the purpose, and in the fall of the year 1934 this Seminary continued its work in the newly acquired building by the Church Consistory at No. 7 St. Johns Avenue in Winnipeg. This building is at present used for the girls' residence.

A concrete plan for the establishment of St. Andrew's College was first submitted to the Ministerial Conference held at Winnipeg on June 25, 1943, by Very Rev. S. W. Sawchuk. The plan was approved and the official campaign for funds was announced on January 15, 1944, although the first contribution for this purpose came from St. Julien, Sask., on July 18, 1943, in the sum of \$472.95.

This example was followed by many parishes and public-spirited individuals until it was possible to raise sufficient funds for the purchase of a suitable building, furniture and the necessary equipment.

In response to a general demand that the College be co-educational the board found it necessary to purchase a suitable building adjoining the College for the Girls' Institute. The building is new and modern in every way and it provides accommodation for twenty-eight girls under supervision of a matron. The College building itself provides dormitory

accommodation for 40 to 50 boys in addition to four classrooms, offices, girls' parlour, common room, play room, teachers' rooms, kitchen, dining room, library, chapel, chemistry laboratory, physics laboratory and store rooms.

The College opened for the first time on September 4, 1946, with an experienced teaching staff and modern accommodation. Full grade XI and grade XII courses were provided, equivalent to the Junior and Senior Matriculation or the First Year University. The first group of Theology students, twelve in number, was registered during the school year 1947-48, and it was necessary to increase the teaching staff accordingly in order to provide for the four year course.

The College fills the educational needs of a progressive community in the Ukrainian Greek-Orthodox Church of Canada by following the aims outlined above with special emphasis on the moral and religious qualities of character as the core of good citizenship. The main purpose of the College, however, is to train and supply priests and leaders for the church which is rapidly growing in membership and in the number of parishes.

The College, in accordance with its Charter, issues Certificates in Theology and confers degrees of Bachelor of Divinity and Doctor of Divinity. Its theological department is being built up gradually and it is hoped that young men trained in this College will take advantage of the opportunity to serve their church and the community.
